POWERING PROGRESS SINCE 1970

Founded in 1970 by Chawki Harb in Downtown Beirut, Harb Electric began with a team of 20 employees and a clear vision: to introduce world-class electrical solutions and household appliances to the Lebanese market. Alongside Adnan Harb, the company set out to modernize the sector by bringing innovative technologies and leading international brands to the region.

In 1996, Harb Electric expanded its footprint across the MENA region through the establishment of sister companies and the acquisition of distribution rights for renowned global brands, including ABB, Vimar, Vortice, and S&P.

Today, Harb Electric employs more than 500 professionals and operates nationwide, offering a comprehensive portfolio of over 33 electrical and mechanical brands and more than 37 lighting brands. The company serves a wide spectrum of clients, from major projects and consultants to resellers and partners.

Committed to knowledge sharing and industry advancement, Harb Electric actively invests in seminars, workshops, and conferences, ensuring professionals remain at the forefront of developments in lighting, electrical systems, and emerging technologies.

Driven by growth, innovation, and long-term partnerships, Harb Electric continues to shape a smarter, brighter future for the markets it serves.

THE ENERGY BEHIND OUR SUCCESS

VISION

To be recognized as the most trusted provider of smart and sustainable electrical solutions, empowering industries, businesses, and communities through innovation and expertise.

MISSION

At Harb Electric, our mission is to deliver safe, efficient, and smart electrical systems that foster the confident advancement of our partners. With a highly skilled team, advanced technology, and a passion for excellence, we light the path toward a more connected future across the MENA region.

LEADERSHIP LETTER

Harb Electric was founded by the late Mr. Chawki Harb on the principles of integrity, dedication, and excellence. What began as a family-run venture has grown into one of the region's leading enterprises, with a strong footprint in Lebanon and across the MENA region.

Our founder's vision continues to shape who we are today. His unwavering commitment to quality, innovation, and customer satisfaction remains the cornerstone of our strategy and the driving force behind our growth. Every milestone we achieve stands as a tribute to the values he instilled in our organization.

Today, we honor his legacy by maintaining the same high standards that have guided Harb Electric since its inception. We continue to expand our portfolio of electrical, mechanical, and lighting solutions, representing globally renowned brands and delivering projects that meet the highest international benchmarks.

As we move forward, we remain focused on earning and sustaining the trust of our clients and partners, driving innovation, and strengthening our position as one of the region's foremost companies—true to the vision of our founder and prepared for the challenges of the future.

Hussein & Hilmi Harb

On behalf of the Harb Electric family

**OUR TRUSTED
GLOBAL PARTNERS**

ELECTRICAL

ABB Product Range

Harb Electric partners with **ABB**, a global leader in power, automation, and digital technologies. Operating in over 100 countries, ABB provides advanced low-voltage solutions that connect, protect, and control electrical installations across all sectors. Through this partnership, we offer reliable, high-performance products built for safety, efficiency, and long-term durability.

At Harb Electric, we futureproof spaces with the EIB/KNX system, an open, decentralized protocol that seamlessly manages lighting, shutters, HVAC, fans, and more. Using dedicated KNX twistedpair cabling, it ensures fast, reliable communication across all devices.

A typical setup includes a power supply, communication modules, KNX cabling, sensors, and actuators—working together to deliver smart, scalable control, enhanced comfort, and longterm reliability.

ABBfree@home®

Harb Electric brings you ABBfree@home®, a smart home system that intuitively controls lighting, blinds, HVAC, door communication, and appliances. Manage your home via switches, voice, or remotely, with automated functions based on schedules, occupancy, or temperature for effortless comfort and efficiency.

ABB PRODUCT RANGE

Breakers: MCB, MCCB & ACB
Electronic Products & Relays
Switches & Changeovers
Enclosures: Domestic & Industrial Motors
Motor Protection & Control
Soft-Starters & AC Drives
UPS
Solar PV Systems
Smart Relays & PLC
MV Switchgears
EV Charger

ABB enables smarter, reliable, and emissionfree mobility for all. Its EV charging portfolio spans compact AC wallboxes, dependable DC fast chargers with strong connectivity, and advanced ondemand charging systems for electric buses, delivering complete, futureready charging solutions.

WIRING DEVICES

Eikon four-dimensional luxury and technology. Discover Eikon, technology and design for those who want to turn the lighting device into a real element of interior design.

EIKON TACTIL

Touch the smooth bright surface of the glass and linger for a moment on the precious glow of the crystal finishing. A simple gesture, which this sophisticated touch technology trans-forms into direct energy control.

EIKON EVO

Eikon Evo redefines electrical luxury with seven distinctive styles and premium materials, from aluminum and stone to wood, crystal, leather, and Corian, creating refined spaces with timeless sophistication.

EIKON EXE

A new definition of style and a new concept of luxury, to create an electric system in line with the latest interior design trends.

Vintage - Flat - Tondo

Eikon Exé combines impeccable design with advanced technology, creating a sustainable electrical system that evolves with modern lifestyles.

LINEA

Linea reflects our commitment to sustainability, replacing 70% of fossil plastics with renewable and recycled materials and cutting CO₂ emissions by over 80%, saving 500 tons annually.

ARKÉ

Materials and finishes to express all-Italian creativity beautifully. Styling continuity and discrete tones for total immersion. Striking simplicity in three timeless shades: White, Anthracite Grey and Metal, in order to match the buttons in the same colour.

NEVE UP

Neve Up by Vimar blends elegant Italian design with smart functionality, offering switches and sockets in multiple finishes and 12 colors for timeless residential and commercial spaces.

PLANA UP

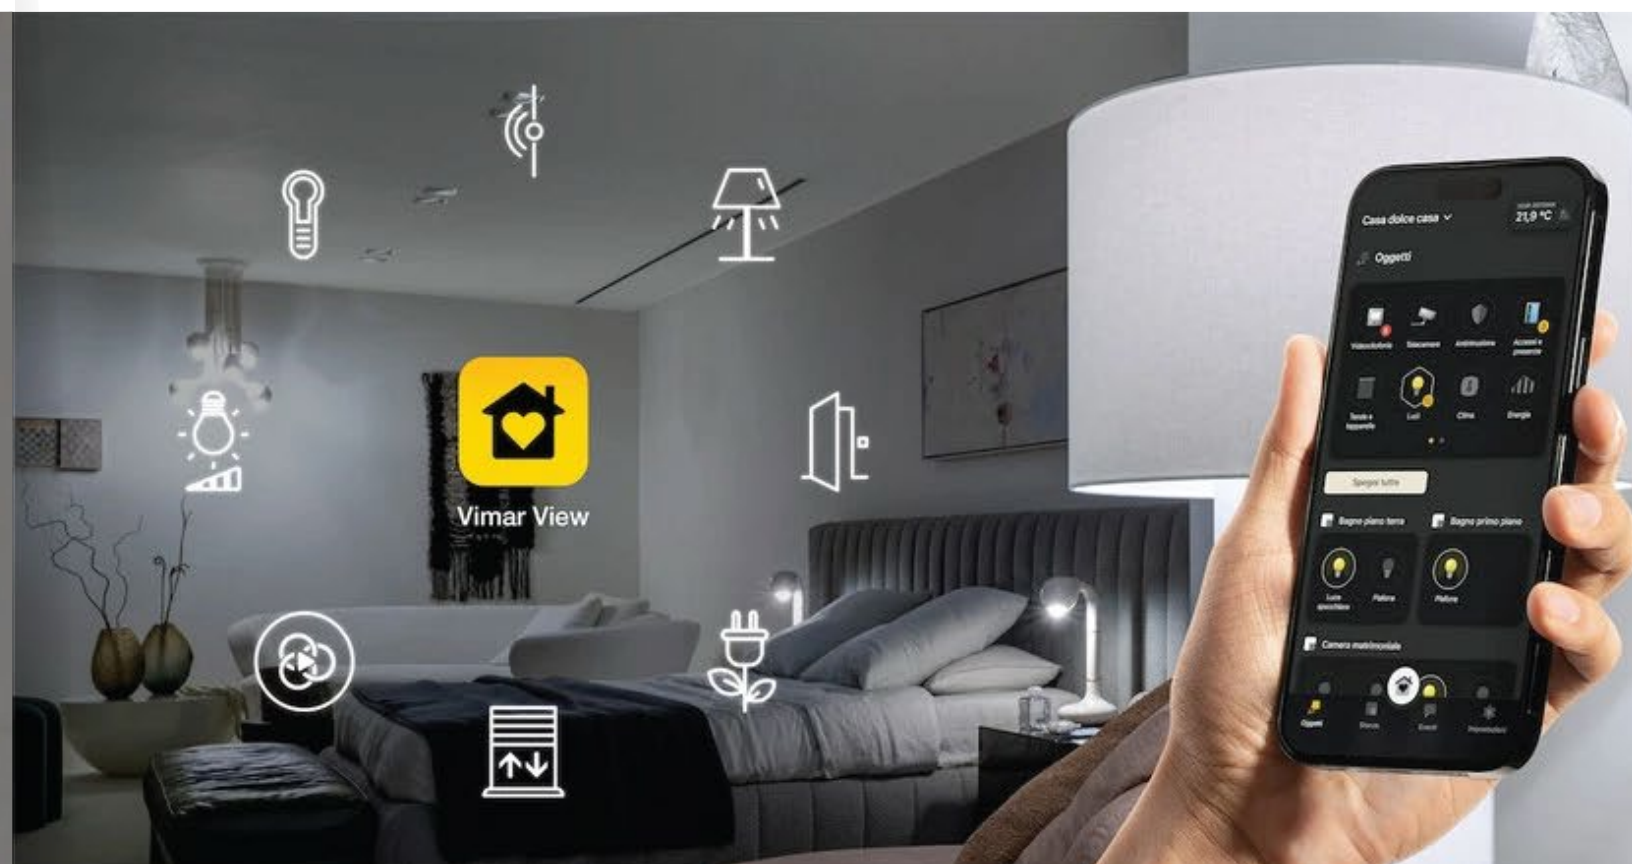

Plana Up by Vimar blends clean design with everyday practicality. With easy-care materials and 13 exclusive colors, from bold emerald and orange to soft mint and amber, it's made to elevate any space with modern, personalized style.

MODULAR DESIGN. DISTINCTIVE EFFECTS.

The series stands out for its complete versatility, thanks to its modular design that meets the diverse needs of residential and hospitality applications.

HOME AUTOMATION

The home
SIMPLY BECOMES SMART

Harb Electric has grown regionally by integrating the latest and most advanced automation technologies, including KNX, By-me, and View Wireless. Backed by more than 60 years of expertise, innovation, and strong design heritage, these brands deliver comprehensive solutions for the automation of homes, buildings, and marine environments—offering effective, reliable, and fully personalized control.

With By-me, KNX, or View Wireless, each room can be tailored to your preferences—at any time and for any situation. Through the intuitive Multimedia Video Touch Display, users can select from up to 32 preset combinations of temperature, lighting, and comfort settings, all configured to meet daily routines, special occasions, unexpected needs, or individual preferences.

UPDATE YOUR SPACE SIMPLY, EVEN REMOTELY.

with just a few tasks and no need for masonry work. It is ideal for renovations or to boost the functions of an existing system, and it is a useful means of support for the elderly and people with restricted mobility.

WITH JUST ONE TOUCH, YOUR FAVORITE SCENARIOS.

up to 64 devices can be connected to manage: lights and adjust the lighting thanks to the connected dimmers, motorized shutters and curtains, energy consumption, climate and scenarios, even remotely.

VIMAR TOUCH VIEW – THE SMART HEART OF YOUR HOME

Vimar Touch View is more than a display, it's the smart heart of the home. With an intuitive interface, it centralizes control of lighting, blinds, climate, energy, alarms, cameras, and video entry, integrating View Wireless, By-me Plus, and Elvox systems. Clean, well-organized widgets ensure effortless, everyday control from one elegant device.

THE WHOLE HOUSE UNDER CONTROL

Via touch screen, via App View with a smartphone or naturally with your voice. All functions are integrated into a single system.

'INTERRA

Developer of Uniqueness—

Next-level smart home and building control with Interra.

From sleek touch screens to powerful KNX solutions, including IX10, IX2, IX3, IX4 and IXM.

Designed for flexibility, reliability, and seamless integration.

Smart technology, smarter control.

iddero

KNX DEVICES

Iddero HC3 – 7" & HC3L – 10"

Advanced KNX touch panels for smart home and building control.

Intuitive control of lighting, climate, and motorized systems, real-time security monitoring, and seamless KNX integration, all on a high-resolution touchscreen.

Iddero VERSO 2

Advanced KNX Touch Panel

A sleek 4.3" touchscreen for smart home and building automation.

Control lighting, climate, and motorized systems, monitor security in real time, and enjoy seamless KNX integration—all through a modern, high-resolution display.

SMART ENTRY, SMARTER LIVING

Multiple solutions to see, hear and talk with the exterior of the dwelling. We provide you with intelligent door entry and video door entry systems with Due Fili Plus and IP technologies.

Home automation integrates communication inside and outside the smart home. A wide selection of video door entry units, door entry units and entrance plates for residential and tertiary settings.

In addition to the usual video door entry functions, the Tab 7S also has built-in Wi-Fi and a Video Door app allowing call repetition on your smartphone to ensure total control even when you are out and about. In short, a product with its sights set firmly on the future.

In order to provide our clients with the best products in the Lebanese market, we partnered with Liban Cables, which has more than 45 years of experience in cables and cabling systems, starting with systems' original conception and design of products as well as solutions up to manufacturing a complete range of high quality cables.

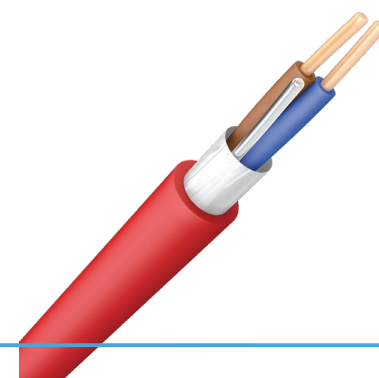

Nexans Cat 6 UTP

Nexans Cat 6 UTP cables provide high-speed data transmission with reliable performance for structured cabling systems, supporting gigabit Ethernet and ensuring seamless network connectivity.

Harb Electric proudly introduces Prysmian Group, the world's leading cable manufacturer. Now available across our branches: Prysmian's newly designed cable ranges, engineered with enhanced fire resistance to meet the highest safety and compliance standards.

Harb Electric proudly offers a wide selection of high-quality products from FEMI-CZ SpA — a leading Italian manufacturer specializing in metallic cable trays and suspension systems.

Our stores carry a broad range of FEMI-CZ items, including cable trays and support system accessories, designed to meet the needs of professional plant installers and large-scale industrial users.

Eurotray manufactures a complete range of steel cable tray systems in Turkey, designed to safely support and organize electrical cables for industrial, commercial, and infrastructure applications.

The trays are available in multiple finishes, including hot-dip and pre-galvanized coatings, to suit various environments such as corrosive or outdoor conditions.

Eurotray also provides all required accessories and fittings, delivering a durable, efficient, and fully integrated cable management solution.

At Harb Electric, we provide Bahra Copper Bar, a trusted supplier of premium copper busbars. Known for their excellent electrical conductivity and mechanical strength, these busbars are ideal for power distribution and panel board solutions, delivering reliability and efficiency in every application.

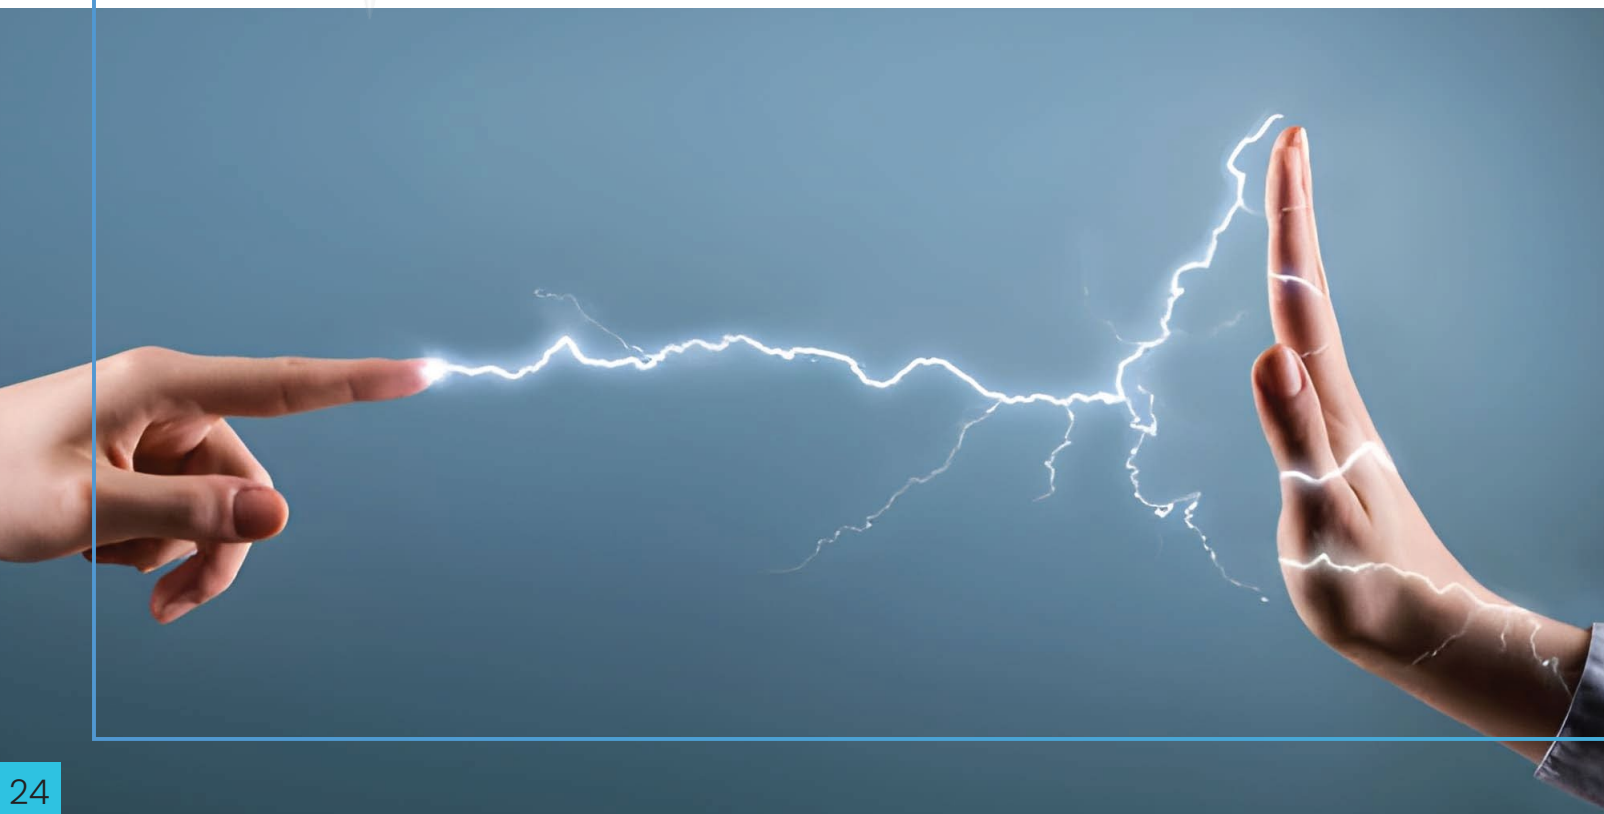

cirprotec

LIGHTNING PROTECTION

Our clients' safety remains our top priority and, for that reason, we bring them Cirprotec, a company that is a pioneer in the design and manufacture of lightning and surge protection devices. For over 20 years Cirprotec has been providing high quality solutions and products using the latest most innovative technology.

Cirprotec specializes in lightning protection, ESE lightning rods, Faradizations and Internal

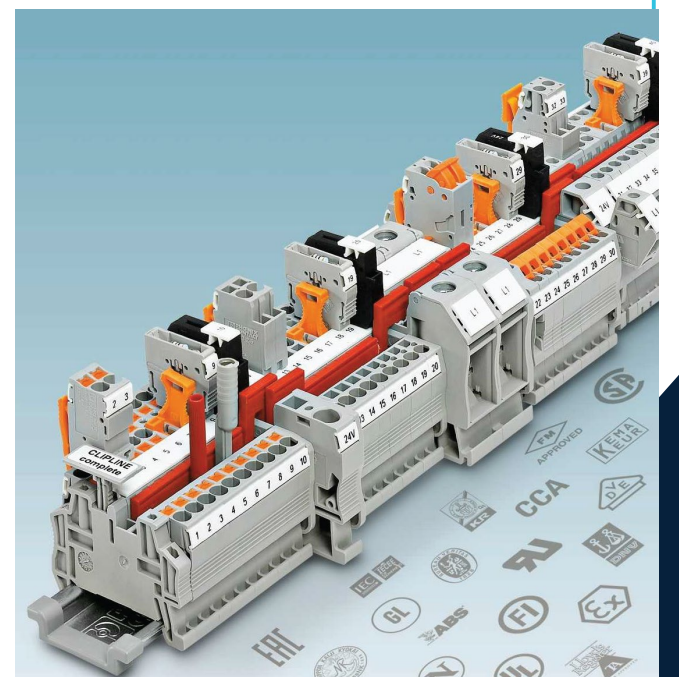

CARLO GAVAZZI

Harb Electric hand-picks one of the most internationally renowned brands for designing, manufacturing and marketing electronic equipment. We aim to keep our focus on optimizing systems' performance by supplying high quality sensors, switches, controls and fieldbuses from Carlo Gavazzi.

Phoenix Contact is a global leader in industrial automation and connection technology, founded in 1923 and headquartered in Germany, delivering innovative solutions for power, data, and signal management across industries.

Harb Electric displays several equipment developed and produced by Sarel which started out in 1988 with the following targets: study, design, production, marketing and installation of electromechanical and electronic switchboard and medium voltage equipment.

Founded in 1994, MAREL has been supplying the international market with LV ABC accessories and other cable accessories; some of which include aluminum brackets, pigtail eye bolt, suspension assembly pieces, service anchoring, anchoring and suspension clamps, and dead end clamps, among many more LV ABC accessories we stock at Harb Electric.

FOTEK is a trusted industrial automation brand offering high-performance sensors, temperature controllers, and solid-state relays. With real-time monitoring, PID control, fast switching, and compact designs, FOTEK solutions ensure reliable, efficient operation and seamless integration across industrial applications.

MEDIUM VOLTAGE PRODUCTS

ABB's medium-voltage portfolio ensures safe, reliable, and efficient power distribution, covering switchgear, compact substations, electrical houses, and protection and control solutions from 1 to 52 kV for indoor and outdoor applications.

Hitachi Energy is a pioneering technology leader shaping a sustainable energy future through advanced solutions, expertise, and collaboration across the global energy sector.

TSTY Electric Co., Ltd., founded in 1995 in Henan, China, is a power equipment manufacturer specializing in transformers up to 220 kV, compact and new-energy substations, energy storage systems, and complete electrical solutions meeting European, American & Chinese standards.

SapiSelco is an Italian manufacturer with over 70 years of expertise in high-quality cable ties and cable management solutions, trusted worldwide for reliability and performance.

Rishabh Instruments is a leading manufacturer of electrical measurement and protection devices, delivering accurate, reliable, and cost-effective solutions for industrial and commercial applications worldwide.

ROSI is a trusted brand offering a wide range of robust electrical components, including disconnecting switches, industrial sockets and plugs, and modular enclosures. Their products are designed for reliability, safety, and ease of installation in both industrial and commercial environments.

EuroGuaine is an Italian manufacturer of flexible PVC spiral hoses and protective conduits used in electrical systems, cable and fiber protection, gas and air-conditioning installations, and related applications. Based in Atena Lucana, Italy, it is a family-run business with over 20 years of experience, producing high-quality PVC products with competitive pricing and exporting to Europe and beyond.

Gulf Technical Industrial Establishment (GEPI-CO) is a manufacturer of wire and cable management systems and solutions. The company was established in 1991. The company's product range covers all aspects related to managing wires and cables. GEPI-CO's products are designed and produced to be cost effective and offer value for money, while being of premium quality.

FAAC

FAAC Technologies is primarily an Italian company with its main technological and executive headquarters located in Bologna, Italy. While founded in Italy and deeply rooted in Italian manufacturing, the group produces electronics in Dublin, Ireland, and operates multiple manufacturing sites and subsidiaries across 5 continents.

24V AUTOMATIC BARRIERS

FAAC automatic barriers are the ideal solution for **managing and controlling vehicle access in a wide variety of settings**. From residential complexes to corporate entrances, industrial sites, highway toll gates, and both public and private parking areas—our barriers are engineered to deliver **maximum security and reliability**.

With FAAC barriers, you can efficiently regulate vehicle flow, **prevent unauthorized access**, and ensure that only authorized users can enter and park within your premises.

Centurion Systems is a South African access automation manufacturer founded in Johannesburg in 1986, producing gate motors, access control and security products for residential, commercial and industrial use. Headquartered in Johannesburg, its reliable, innovative solutions are exported to over 70 countries worldwide

INTELLIGENT SECURITY FOR YOUR GATE

Your entrance gate is your first line of defense. Strengthen it with confidence using CENTURION sliding gate motors—expertly engineered to combine advanced security with everyday convenience. Upgrade today and experience innovation, reliability, and peace of mind in perfect harmony.

LINEAR SWING GATE OPERATORS

The VANTAGE SMART delivers smart swing gate automation with a sleek, durable design and award-winning technology. Featuring app-based setup, advanced security, and heavy-duty aluminium construction, it offers effortless control, reliable performance in all conditions, and complete peace of mind—combining strength, style, and intelligent innovation.

GARAGE DOOR OPERATORS

The SDO4 SMART Garage Door Operator combines intuitive features and streamlined functionality to make installations faster, simpler, and more efficient. Whether upgrading existing systems or working on new projects, the SDO4 SMART is your ultimate partner for professional results.

LIGHTING

PHILIPS

ECOLINK

PHILIPS

Made In Netherlands

As a main player in the field of electronics and electric devices, Harb Electric always strives to provide and showcase top leading brands such as Signify, the new company name of Philips Lighting which became a standalone company following its spin-off from Royal Philips in 2016. Signify is the world leader in lighting with recognized expertise in the development, manufacture and sale of innovative, energy-efficient lighting products, systems, and services. Their purpose is to unlock the extraordinary potential of light for Brighter Lives and a Better World.

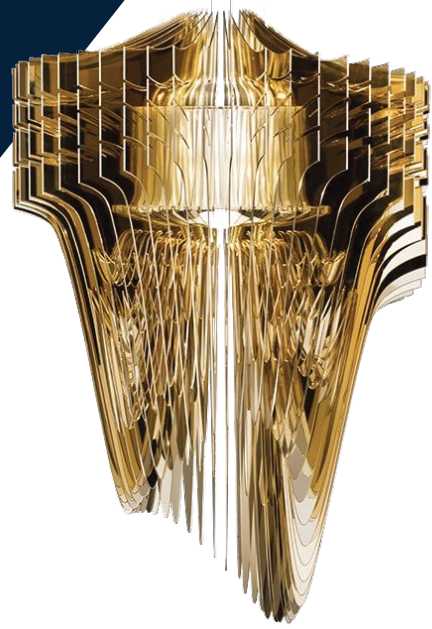

As a trusted provider of reliable and affordable lighting solutions, Harb Electric proudly presents Ecolink, a Signify brand designed to deliver quality, efficiency, and simplicity. Ecolink offers a wide portfolio of everyday lighting products engineered to meet essential residential and commercial needs without compromising performance. Backed by Signify's global expertise, Ecolink combines dependable illumination, long-lasting value, and energy-saving technology—bringing smart, sustainable lighting within everyone's reach.

ECOLINK

Harb Electric continues to showcase the industry's strongest lighting brands, including Cooper, now part of Signify's broad and innovative portfolio. Cooper Lighting Solutions is recognized for its high-performance luminaires, advanced controls, and professional-grade lighting systems tailored for industrial, commercial, and infrastructure applications. Supported by Signify's global leadership, Cooper offers cutting-edge, energy-efficient solutions developed to enhance safety, elevate design, and optimize lighting performance across every environment.

SLAMP: Made In Italy

Slamp, at Harb Electric, is a leader in decorative design lighting. Drawing inspiration from nature, architecture, fashion, and contemporary art, Slamp creates expressive and versatile lamps. Handcrafted in Italy by skilled artisans, the brand combines elegance, distinctive identity, and sustainable high-quality craftsmanship for both indoor and outdoor spaces.

Zambelis LIGHTS Made In Greece

Zambelis Lights, at Harb Electric, offers high-end indoor and outdoor lighting designed to elevate any space, from private residences to large-scale commercial projects. The collection includes multi-light and single pendants, wall, floor, and ceiling fixtures, ceiling fans in wood or aluminum (with or without lighting), and spotlights, each combining modern sophistication with practicality and exceptional design.

ALPHABET BY ZAMBELIS Made In Greece

ALPHABET, at Harb Electric, carries the signature expertise of Zambelis Lights, one of Greece's most dynamic and modern lighting companies. Founded in 1967, Zambelis Lights brings over 55 years of experience in producing high-quality architectural and decorative lighting, combining innovative design with customer-driven insights and a dedicated R&D team. Since 2017, the brand has expanded internationally, exporting its products to both EU and non-EU markets.

Harb Electric is committed to providing only the best brands with a wide range of durable and sustainable products. Fumagalli will not fail our customers as it is proud to define itself as a “pure Italian manufacturer”. All its products are strictly manufactured inside its factory located in Varese (Italy), enabling them to have a full control on the quality and performance of their products.

Fumagalli products such as Exterior and interior lighting, up lights, wall lights, projectors poles (street lighting) are Anti Corrosion, no maintenance needed, made of UV stabilized materials, safe and not affected by chemical fertilizers.

Harb Electric’s extensive line of high-quality Italian brands continues with TEC-MAR which, since 1992, offers a wide range of lighting fixtures for indoor and outdoor application, as part of the industrial, commercial, and urban space, designed and built in the awareness of the importance of MADE IN ITALY.

The “High Performance Lighting” slogan, best describes their corporate mission, incorporates a balanced interaction of tradition, modernity, high quality, creative contribution and broad of each product. All these aspects make TEC-MAR a dynamic and growing company that exports to more than 30 countries in the world and satisfies the growing versatile lighting needs.

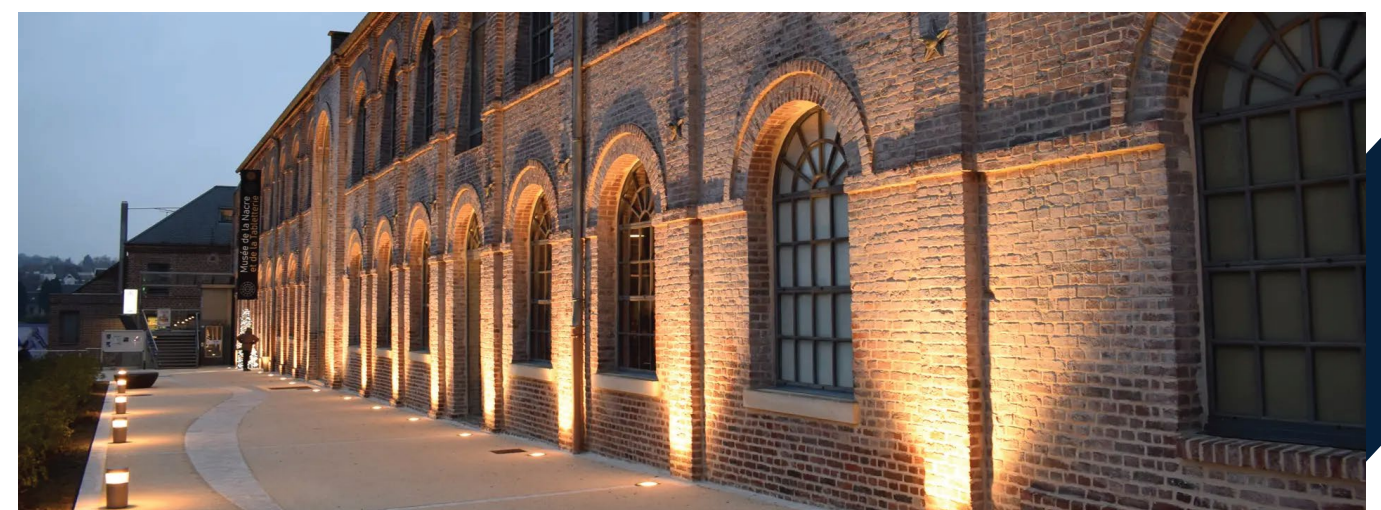

At Harb Electric, we showcase brands that combine experience, design, and quality. Lluria, a Spanish family-owned company, brings over 40 years of expertise in providing lighting solutions that highlight the architectural lines and aesthetic appeal of any building, offering reliable and high-quality products for both residential and commercial projects.

Schuller, based in Valencia, Spain, has been crafting stylish lighting since 1967. Celebrated for its elegant designs and high-quality materials, the brand offers over 2,000 products and exports to more than 50 countries, earning a reputation as a trusted choice for both residential and commercial projects worldwide.

Disano Illumination, featured at Harb Electric, is a market leader in professional lighting. Since 1957, this Italian brand has delivered high-quality, reliable solutions, including watertight fixtures and streetlights, combining superior craftsmanship with exceptional customer service.

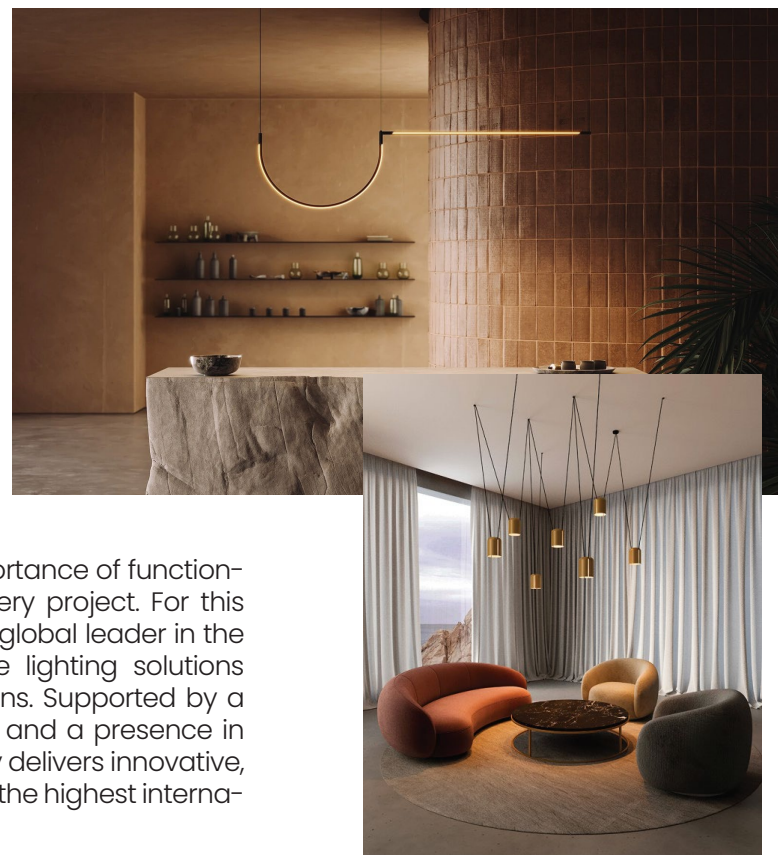

Dawn Industries was founded on a deep heritage of craftsmanship, engineering, and innovation in lighting. With strategic branches in Egypt and Saudi Arabia, and operations across Europe, Lebanon, and the GCC, we deliver advanced architectural lighting solutions that stand for precision, durability, and Italian excellence.

PUK, showcased by Harb Electric, is an Italian architectural lighting brand with over 30 years of experience in outdoor lighting. Known for innovative solutions, technical excellence, and design flexibility, PUK delivers consistent performance through one of the most comprehensive and competitive collections on the international market, offering a five-year full warranty on its LED products.

At Harb Electric, we recognize the importance of functionality, practicality, and efficiency in every project. For this reason, we proudly feature LEDS C4, a global leader in the design and manufacture of versatile lighting solutions tailored to a wide range of applications. Supported by a team of more than 330 professionals and a presence in over 140 countries, LEDS C4 consistently delivers innovative, high-performance lighting that meets the highest international standards.

BELITE, available at Harb Electric, is a leading brand in outdoor architecture and landscape LED lighting. Committed to research, development, and all-in-one solutions, BELITE has built a professional R&D team of engineers and technicians, holds 20 patents, and is certified under ISO9001. The brand also meets international standards including CE, CSA, ETL, IK, IP, SASO, and ROHS. With expertise across eight outdoor lighting categories, BELITE continues to focus on innovation and the design of new, cutting-edge models.

Buckingham

Made In China

At Harb Electric, we partner with brands that deliver performance and reliability. Buckingham is a leading China-based manufacturer of architectural lighting, offering high-quality indoor and outdoor solutions, from spotlights to linear and magnetic track systems designed to meet diverse project needs with precision and efficiency.

CAPRAZZE

Made In Italy

At Harb Electric, we feature brands that combine style, versatility, and innovation. Capprazi offers colorful, flexible lighting track systems that seamlessly integrate with any wall or ceiling design. Some tracks even allow color customization to perfectly match your space, making Capprazi a practical and stylish choice for projects that demand both functionality and visual impact.

summer

Made In China

SUMMER, at Harb Electric, is a leading brand in modern, elegant luxury lighting. Combining advanced technology with refined design, SUMMER creates lighting solutions that transform spaces, merging optical precision with aesthetic harmony to redefine contemporary interiors.

LEDLUZ

LINEAR LIGHTING Made In China

LEDLUZ, at Harb Electric, offers premium aluminum LED profiles that elevate any LED strip installation. With a wide range of extrusion profiles, LEDLUZ enables architects, interior designers, retailers, and contractors to create innovative and visually striking lighting projects with ease and precision.

QL

QL LIGHT CO., LTD. Made In China

QL specializes in the engineering and marketing of LED-related products. Leveraging extensive expertise in electrical components, thermal management, industrial design, and optics, QL operates under ISO 9001:2000 standards, with all products fully compliant with CE and ROHS certifications.

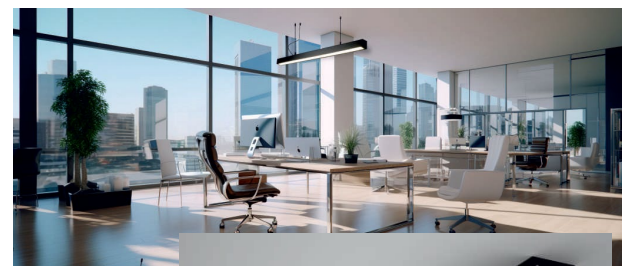

“Discover
the versatility
of our LINEAR
Emergency Light”

Olympia Electronics S.A., at Harb Electric, is a Greek company founded in 1979, specializing in electronic security systems. As the largest producer in Greece and one of the top ten in Europe, the company is committed to innovation, quality, and value. Its product range includes emergency lighting, fire alarms, and access control systems, all manufactured and inspected according to European construction standards (EN) to ensure reliability and excellence.

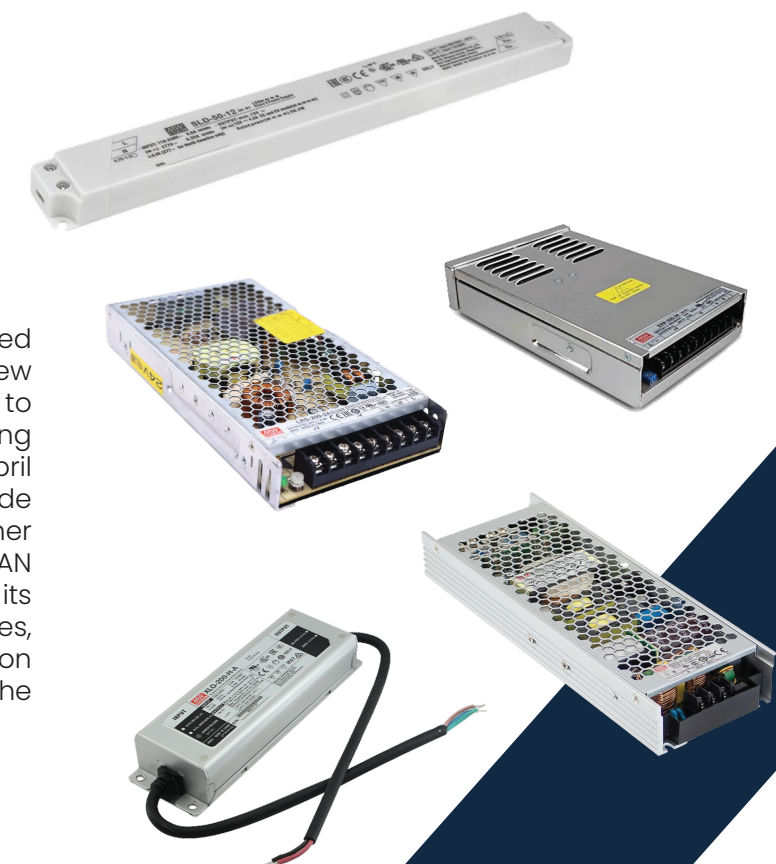

At Harb Electric, we feature TEPEX, a regional leader in the manufacture of explosion-protected electrical equipment. With over 70 years of industry expertise, TEPEX focuses on continuous innovation, market expansion, technological advancement, and investment in its workforce and infrastructure, delivering reliable and cutting-edge solutions for demanding environments.

At Harb Electric, we feature JSDSOLAR Lighting, a dynamic and fast-growing international leader in solar lighting and solar energy. Established in 2005 in Shenzhen, JSDSOLAR is one of the earliest new-energy manufacturers, specializing in the design and development of solar products while providing professional solar power system solutions for a wide range of applications.

At Harb Electric, we offer MEAN WELL, founded in 1982 and recognized as one of the few global manufacturers devoted exclusively to standard power supply products. According to a Micro Technology report released in April 2025, MEAN WELL ranks 5th among worldwide DC power supply manufacturers. Unlike other top competitors who rely on ODM/OEM, MEAN WELL generates 99% of its revenue from its own branded standard power supplies, reflecting a business strategy focused on quality, reliability, and innovation under the MEAN WELL name.

MECHANICAL

Harb Electric recognizes the essential role of proper ventilation in creating healthier indoor environments. As Vortice perfectly states, "Improving the quality of life also means improving the quality of the air we breathe."

To meet this vital need, we partner with Vortice—an industry leader in designing and distributing advanced ventilation solutions for heating, cooling, refreshing, and purifying the air in residential and commercial spaces.

Blending modern design with practical functionality, Vortice products ensure efficient, safe, and environmentally conscious airflow management, enhancing comfort and well-being wherever people live and work.

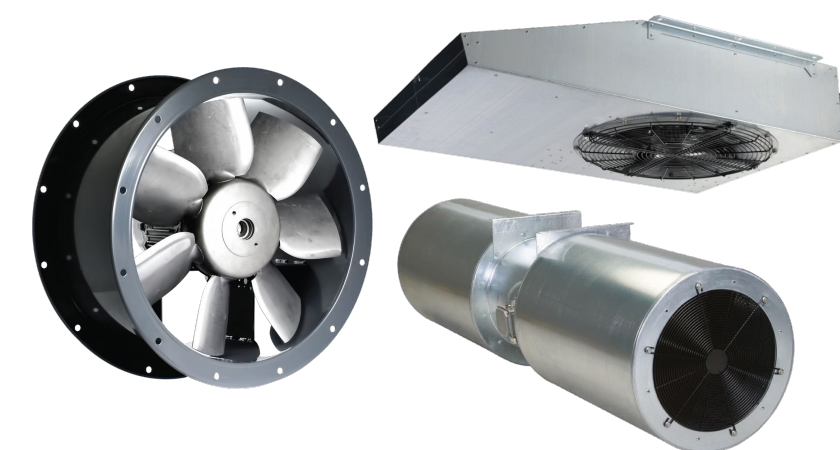

Made In Spain

Soler&Palau
Ventilation Group

In partnership with Harb Electric, the Spanish company S&P delivers comprehensive ventilation solutions across all sectors, including residential and commercial fans, extractors, ventilation systems, air treatment units, heat recovery solutions, and car park ventilation.

Harb Electric is committed to collaborating with leading global brands, and S&P stands as a prime example, recognized worldwide as a leader in ventilation systems for domestic, commercial, and industrial applications.
